Q & A

Question Do I need to install software for the [Desk+Air] mouse function?

Answer Just lift the mouse in the air to enable the "Lift in Air" function, to turn it into a multimedia controller.

Question Is the air function fully compatible with all multimedia platforms?

Answer The mouse air function is created according to the Microsoft operation instructions. Except for the volume control function, the other multimedia functions might be limited use by some system platforms or third-party software support.
